Same Day Endoscopy Flowchart

ACS 0046

- **Same day endoscopy**
  - Yes: **Investigation of symptoms**
  - Yes: **Causal link established**
    - Yes: Finding should be assigned as principal diagnosis. Symptom should not be coded. Other findings should be assigned as additional diagnosis
    - No: Symptom should be assigned as principal diagnosis. All findings should be assigned as additional diagnosis
  - No: **Seek clarification from Clinician**

ACS 2113

- **Follow up**
  - Yes: **Residual or recurrent condition found**
    - Yes: Code the condition as the principal diagnosis. An appropriate follow up code from Z08-Z09 should be assigned as an additional diagnosis. Other findings should only be coded if they meet the criteria in ACS0002.
    - No: A code describing the type of previous treatment from Z08-Z09 should be assigned as the principal diagnosis. A code from Z85-Z87 should be assigned as an additional diagnosis to show the personal history. Other findings should only be coded if they meet the criteria in ACS0002.
  - No: **Seek clarification from Clinician**

ACS 2111

- **Screening**
  - Yes: **Disease detected**
    - Yes: Assign a code for the disease as the principal diagnosis. Do not assign a code from Z11-Z13. Other findings should only be coded if they meet the criteria in ACS0002.
    - No: Assign a code from Z11-Z13 as the principal diagnosis. An additional diagnosis code may need to be assigned if the reason for screening is known. Other findings should only be coded if they meet the criteria in ACS0002.
  - No: **Seek clarification from Clinician**
