

Bladder cancer resource kits

The WA Cancer and Palliative Care Network have produced resource kits to enable practitioners in the delivery of best level care for patients with bladder cancer.

The kit includes:

- A model of care for the delivery of bladder cancer services
- Nursing guidelines for the administration of intravesical agents
- Self directed learning package for nurses giving intravesical agents
- Bladder cancer patient information booklet and treatment diary

- Mitomycin patient information leaflet
- BCG patient information leaflet
- Intravesical agent delivery clinical care pathway
- Clearance to proceed with intravesical treatment algorithm.

To obtain a bladder cancer resource kit, please complete your details and return to the address shown overleaf.

Electronic copies of these resources can also be found on the WA Cancer and Palliative Care website: <http://www.healthnetworks.health.wa.gov.au/cancer/home>
