Hello, my name is _____, I am calling from ECU Survey Research Centre on behalf of the WA Department of Health regarding a health survey. The Department would like you to take part in this important initiative to ensure that up-to-date information on the health and wellbeing of Western Australians is available to plan and develop health services.

(Answering machine script) Hello, my name is ____, I am calling on behalf of the WA Dept of Health regarding a health survey. Sorry to have missed you we will call again later or if you would like to make an appointment for us to call, please telephone 1800 etc.

Additional information about silent numbers (if this issue is raised by the respondent). We obtained your number from the electronic version of the white pages. This probably means that prior to you getting the number, the number was not a silent one. If you are concerned about this, we suggest that you contact your telephone service provider.

LET1 Have you recently received a letter from us about the survey? Letter
(Single Response)

C Y A O

- 0. No
- 1. Yes
- 998 Unsure/Don't know/Can't remember

[If No] The letter invites your household to take part in a telephone survey being conducted by the Department of Health.

[All] I can assure you that information given will remain confidential. The answers from all people interviewed will be gathered together and no individual answers will be published or passed on. Your responses will form part of a picture of your local community. On average the survey takes 20 minutes, and participation is voluntary. You may withdraw from the survey at any time and may refuse to answer any questions as you wish.

[All] Is there anyone in your household in the age group...? (If more than one person in the household within the selected age category, ask to speak to/about the person last to have a birthday. If the answer is yes, ask to do interview with the selected age group. If the answer is no and option 1 had been asked, then ask option 2. If the answer is no and option 2 had been asked, then ask option 1. If answer is no and options 3 or 4 were asked, ask for person with the most recent birthday).

- 1. Under 16 years - surveys for this group need to be completed by an adult that knows the child best **(Asked 58 times out of 100 calls)**
- 2. 16-24 **(Asked 40 times out of 100 calls)**
- 3. 25-64 **(Asked 1 time out of 100 calls)**
- 4. 65 or older **(Asked 1 time out of 100 calls)**

These are 24 hour-7 days a week services staffed by health professionals who are there to listen and to offer help if you need it.

We only have another couple of questions.

LIN1 The Department of Health does many surveys and research projects to guide the planning and provision of the best possible health services for Western Australians. If we need to, could we phone you at a later date to help us in some of these important initiatives? recall

LIN2 (Interviewer note: if asked by respondents, tell respondent that information is provided on the brochure in more detail but briefly, the health information provided by the survey is linked to the hospital data and other health information, but individuals per se are not identified. Only patterns of health behaviours are reported and we never identify individuals. The respondent's confidentiality is respected at all times. Respondents can call the Data Linkage Unit (92224222 and ask for DLU) or Sarah on 9222 4233 if they want further information).

And finally, as you know the Department of Health collects information on things like hospital visits and births etc. We would like your permission to link the information from this survey with some of the health information the Department of Health has about you, such as hospital visits. The information will be put together into a report about all adults in WA and you will never be identified individually. **link**
