

Service Agreement 2023-24 (Abridged)

An agreement between:
Department of Health Chief Executive Officer
and
Child and Adolescent Health Service
for the period
1 July 2023 – 30 June 2024

DEFINED TERMS

In this Agreement:

Act means the *Health Services Act 2016*.

Activity Based Funding (ABF) means the funding framework used to fund those public health care health services whose costs are related to the health services activity delivered across Western Australia.

Agreement means this Service Agreement.

Block Funding means the budget allocations for:

- hospital services that are not activity-based funded, and are functions and services based on a fixed amount (i.e Non-Admitted Mental Health (NAMH), Teaching, Training and Research (TTR) and Small Rural Hospitals (SRH)); and,
- non-hospital services.

Budget Deed refers to the Deed of Amendment following delivery of the State budget, where the State Budget occurs after the release of the Service Agreement.

Chief Executive (CE), in relation to a Health Service Provider, means the person appointed as Chief Executive of the Health Service Provider under section 108(1) of the Act.

Clinical Commissioning has the meaning given in section 6 of the Act.

Commission CEO refers to the Mental Health Commission Chief Executive Officer (also known as the Mental Health Commissioner) and has the meaning given in section 43 of the Act.

Contracted Health Entity has the meaning given in section 6 of the Act.

CSA means a Commission Service Agreement between the Commission CEO and an HSP under section 45 of the Act.

Deed and Deed of Amendment (DOA) means an amendment made under section 50 of the Act that becomes an addendum to the original Agreement and forms the revised basis on which the original Agreement will be conducted.

Department means the Department of Health as the Department of the Public Service principally assisting the Minister for Health in the administration of the Act.

Department CEO means the Chief Executive Officer of the Department (also known as the Director General), whose roles include the System Manager role as defined in section 19 of the Act.

EOY means End-of-year (Financial Year).

EOY Final Allocations means the Service Agreement End-of-year Final Allocations.

Financial Products are non-cash costs such as Depreciation, Borrowing Costs, Doubtful Debts and Resources Received Free of Charge (RRFOC), other than Health Support Services (HSS) RRFOC and PathWest RRFOC.

Health Service has the meaning given in section 7 of the Act.

Health Service Provider (HSP) means a Health Service Provider established by an order made under section 32(1)(b) of the Act.

HSS means the Health Support Services, a Board governed HSP.

MHC means the Western Australian Mental Health Commission as a Department of the Public Service principally assisting the Minister for Mental Health in the administration of the *Mental Health Act 2014*.

MYR Deed means the Service Agreement Mid-Year Review Deed of Amendment.

NHRA means National Health Reform Agreement 2011 and its Addenda.

OBM means the WA health system's Outcome Based Management Framework as endorsed by the Under Treasurer of the Department of Treasury.

OSR means Own Source Revenue.

Other Service means a service provided by the HSP under this Agreement (including capital works, maintenance works and clinical commissioning) not defined as a “health service” in section 7 of the Act.

Parties means the Department CEO and the HSP as key stakeholders to the Service Agreement, the Budget Deed, the MYR Deed and to the EOY Final Allocations, and “Party” means any one of them.

PathWest means PathWest Laboratory Medicine WA, a Board governed HSP.

Performance Indicators provide measures of progress towards achieving the Department CEO’s objectives or outputs

PMP means the Performance Management Policy.

Policy Framework means a policy framework issued under section 26 of the Act.

Schedule means a schedule to the Service Agreement.

Service Agreement (SA) means the HSP 2023-24 Service Agreement between the Parties and as amended from time-to-time including all schedules and annexures.

State-wide support Health Services means health related services provided by HSS and PathWest to or on behalf of the other HSPs as described in the HSS and PathWest Service Agreements.

System Manager refers to the Department CEO’s role as defined in section 19 of the Act.

Term means the period of this Agreement as detailed in section 2.1.1.

TTR means Teaching, Training and Research.

WA means the State of Western Australia.

WA Health means the Department of Health and Health Service Providers considered together.

WA health system has the meaning given in section 19(1) of the Act.

1 PURPOSE AND STRATEGIC CONTEXT

1.1 Objectives of the Agreement

This Service Agreement (Agreement) summarises key aspects of the partnership between the Department of Health (Department) CEO and the Child and Adolescent Health Service (CAHS) in delivering WA Health's goal of safe, high quality, financially sustainable and accountable healthcare.

The principal purpose of this Agreement, pursuant to section 46(3) of the Act, is to detail the Department CEO's purchasing requirements of the Health Service Provider (HSP) including:

- the health and other services that the Department CEO will purchase from CAHS and the health and other services CAHS will deliver during the Term of this Agreement, including health and other services delivered on behalf of CAHS by Contracted Health Entities, and within the overall expense limit set by the Department CEO in accordance with the State Government's approved budgets and priorities; and,
- performance and accountability measures.

The Schedules to this Agreement outline the services to be purchased and the associated budget allocations to be provided by the Department CEO.

1.2 Strategic Context

This Agreement is informed by a wider strategic context related to the delivery of safe, high quality, financially sustainable and accountable healthcare for all Western Australians. The delivery of health and other services within the following strategic context is the mutual responsibility of both Parties.

1.2.1 WA Health System Strategic Directions

A plan outlining the future directions for the WA health system is in development. As outlined in the priorities of the *WA Health System Strategic Intent 2015-2020*, system-wide objectives continue to focus on delivering a safe, high quality, sustainable health system for all Western Australians.

Applying the "Quadruple Aim of Healthcare" framework, the system-wide objectives are promoted through improving the value of expenditure on health services and reducing waste, working to improve the health of the population, and improving safety and quality of healthcare. The focus includes improving the patient journey and satisfaction; and recognising that a happier more engaged workforce delivers higher quality care.

The Government has accepted in-principle 49 of the 55 recommendations of the Independent Review of WA Health System Governance Report and the phased implementation of these recommendations is being progressed.

1.2.2 Sustainable Health Review

The Sustainable Health Review (SHR) is an ambitious reform program that focuses the WA health system on prevention, brings care closer to home and delivers equity in health outcomes. The aim is for Western Australians to receive excellent healthcare now and in future generations. Working together will deliver the structural changes and cultural shifts that are needed to create a sustainable healthcare system.

The State Government is committed to the implementation of the SHR. WA Health continues to implement all the Strategies and Recommendations of SHR which remains the blueprint for building an enduring health system.

Delivery of all SHR Recommendations will continue with a focus on select tranches. This will enable the system to intensify efforts on achieving SHR outcomes and build momentum.

Over the next one to two years there will be a focus on six SHR Recommendations (Focus Recommendations) addressing timely access to outpatient services, models of care for people with complex conditions who are frequent presenters, funding approaches to support models of care and joint commissioning, 10-year digitisation, culture and innovation and workforce improvements.

Aboriginal cultural governance, Aboriginal health outcomes, mental health outcomes, health equity across diverse and vulnerable population groups, preventative healthcare and partnership approaches will be emphasised and embedded within all Focus Recommendations.

HSP Chief Executives, Department of Health Assistant Directors General, and the Mental Health Commissioner have been appointed as Executive Sponsors for implementation of SHR Recommendations by the Department CEO as the Program Owner.

An updated SHR governance approach tailored to support refocused SHR Program delivery includes the Health Executive Committee, revised executive sponsorship and project support. HSPs are required to support delivery of SHR Recommendations in partnership with key stakeholders, contributing to planning, governance, implementation, and communications, with a streamlined and agile approach to reporting and monitoring against progress and outcomes.

1.2.3 Aboriginal Health

In WA, sustained effort is needed to improve health outcomes and access to care for Aboriginal people. The WA health system is committed to a strengths-based approach in which the health and wellbeing of Aboriginal people living in WA is everybody's business. This is enabled by compliance with the suite of mandatory Aboriginal health policies. CAHS is required to comply with the:

- Aboriginal Cultural eLearning Policy—ensuring that new Staff Members complete Aboriginal Cultural eLearning – Aboriginal Health and Wellbeing training.
- Aboriginal Workforce Policy—increasing representation of Aboriginal people at all levels of the workforce to improve Aboriginal health outcomes and achieve the Aboriginal employment target for the health workforce.

- Aboriginal Health Impact Statement and Declaration Policy—ensuring completion and submission of an A10 Aboriginal Health ISD eForm for the development of all new policies; all revision of existing policies and all major amendments to existing policies.
- Aboriginal Health and Wellbeing Policy—actioning the six strategic directions of the *WA Aboriginal Health and Wellbeing Framework 2015-2030* (the Framework).

The Framework outlines a set of strategic directions and priority areas that will progress this commitment.

The Framework’s implementation is conceptualised as three five-year cycles; (1) build the foundations, (2) embed what works, and (3) inform future directions. *Build the Foundations: An evaluation of the first five years of the WA Aboriginal Health and Wellbeing Framework 2015-2030* assessed the progress being made by the WA health system in implementing the first five-years of the Framework. Eleven priorities emerged from the evaluation process and will be used to inform and guide health initiatives over the next five years. CAHS is required to support and implement these priorities in the next implementation cycle – *embed what works*.

1.2.4 Additional Policy Considerations

This Agreement is also informed by the following frameworks, policies, guidelines and plans (noting this is not an exhaustive list):

- WA Disability Health Framework 2015-2025;
- Clinical Services Framework 2020 and its Addendum;
- Mental Health Policy Framework;
- Information Management Policy Framework;
- Purchasing and Resource Allocation Policy Framework;
- Performance Policy Framework;
- Outcome Based Management Policy Framework;
- Clinical Governance, Safety and Quality Policy Framework;
- Research Policy Framework;
- Clinical Teaching and Training Policy Framework;
- ICT Policy Framework;
- Procurement Policy Framework; and,
- Infrastructure (Asset Management) Policy Framework.

1.3 Department CEO Strategic Priorities for 2023-24

The Department CEO priorities for 2023-24 are to:

- support the Minister for Health in delivering the WA Government Election Commitments and other Ministerial priorities, as they pertain to the health and wellbeing of the WA community, including but not limited to, the implementation of the WA Health Ambulance Ramping Strategy and an ongoing focused effort to improve performance in the delivery of elective surgery and outpatient services;
- promote equitable access to healthcare for the WA community, in particular in relation to access to services for country patients within metropolitan settings;
- support the delivery of the recommendations resulting from the SHR with a particular emphasis over the next one to two years on the six SHR Focus Recommendations announced by the Minister for Health; and,
- support the system in the transition to a more stable and normalised operating environment post COVID-19, that includes managing within approved Budget allocations.

1.4 Election Commitments

Approved budget allocations for WA Government Election Commitments have been provided in the 2023-24 State WA Health Budget for relevant programs. Progress on implementation of all election commitments will be required on a regular basis.

Election commitments allocated to CAHS are to be progressed via specific implementation plans approved by the responsible Executive.

2 LEGISLATION AND GOVERNANCE

2.1 Background, Legislation and Scope

2.1.1 Agreement Background

In accordance with section 49 of the Act, the term of this Agreement is for the period 1 July 2023 to 30 June 2024.

This Agreement will be executed in accordance with Part 5 of the Act.

Through the execution of this Agreement, CAHS agrees to meet the service obligations and performance requirements detailed in this Agreement. The Department CEO agrees to provide the activity and budget allocations and other support services outlined in this Agreement.

In respect of its subject matter, this Agreement constitutes the entire agreement and understanding of the Parties and supersedes any previous agreement between the Parties. While this Agreement sets out key matters relevant to the provision of services by CAHS, it does not characterise the entire relationship between the Parties.

They may enter into other arrangements such as Memoranda of Understanding (MOUs) with each other, that provide guidance on how the services under this Agreement will be provided. Such other arrangements will comply with legislation and Policy Frameworks, as relevant.

2.1.2 Legislation - The Act

The Act (section 4) supports the WA health system's vision to deliver a safe, high quality, sustainable health system for all Western Australians including:

- to promote and protect the health status of Western Australians;
- to identify and respond to opportunities to reduce inequities in health status in the WA community;
- to provide access to safe, high quality, evidence-based health services;
- to promote a patient-centred continuum of care in the provision of health services;
- to coordinate the provision of an integrated system of health services and health policies;
- to promote effectiveness, efficiency and innovation in the provision of health services and TTR and other services within the allocated resources; and,
- to engage and support the health workforce in the planning and provision of health services and TTR and other services.

2.1.3 Agreement Scope

The scope of this Agreement is as prescribed in section 46 of the Act, setting out the services to be provided by the HSP including:

- the health services to be provided to the State by the HSP;
- the TTR in support of the provision of health services to be provided;
- the capital works or maintenance works to be commissioned and delivered under the agreement for the purposes of section 20A;
- any clinical commissioning of facilities to be carried out under the agreement for the purposes of section 20A;
- the funding to be provided to the HSP for the provision of the services, including the way in which the funding is to be provided;
- the performance measures and operational targets for the provision of the services by the HSP;
- how the evaluation and review of results in relation to the performance measures and operational targets is to be carried out;
- the performance data and other data to be provided by the HSP to the Department CEO, including how, and how often, the data is to be provided; and,
- any other matter the Department CEO considers relevant to the provision of the services by the HSP.

Where appropriate, reference will be made in this Agreement to Policy Frameworks issued by the Department CEO pursuant to Part 3, Division 2 of the Act.

2.2 Commission Service Agreements

The Department CEO, in accordance with section 44 of the Act, enters into a Head Agreement with the Commission CEO, establishing the purchasing framework for mental health services (including other drug and alcohol health services) to be purchased by the Mental Health Commission (MHC) from the WA health system. The MHC, as provided for under section 45 of the Act, enters into a Commission Service Agreement (CSA) for the provision of mental health and alcohol and other drug health services by CAHS. The CSA must be consistent and aligned with the Head Agreement pursuant to section 44(3) of the Act.

An overview of the activity and budget allocations provided under the CSA between the MHC and CAHS is included in the Schedules to this Agreement. This is to provide CAHS with an understanding of how the budget allocations provided by the MHC contribute to the overall expense limit detailed in this Agreement. The terms of the CSA do not form part of this Agreement. Any amendment to the CSA will be made as a result of negotiation between the MHC and CAHS and in accordance with the Head Agreement.

2.3 Amendments to the Agreement

The Parties may amend this Agreement in accordance with section 50 of the Act when there is a need to change the terms due to matters such as:

- State and Commonwealth Government funding decisions;
- System Manager funding decisions;
- approved transfers of budget between HSPs, or between the Department and HSPs, due to changes in required service delivery; and,
- other significant changes to Commonwealth or State funding, service delivery priorities or other requirements, such as the NHRA.

An amendment made under section 50 of the Act becomes an addendum to the original Agreement and forms the revised basis on which this Agreement will be conducted.

Minor adjustments to the information set out in the original schedules to this Agreement, which do not reflect a change in purchasing intentions, will be provided through separate documents that may be issued by the Department CEO during the term of this Agreement.

Amendments to this Agreement may require a signed acknowledgement by both Parties, unless the amended term is decided by the Department CEO in accordance with section 50(3) of the Act.

3 ROLES AND RESPONSIBILITIES

3.1 Roles and Responsibilities of the Department CEO

The Department CEO as System Manager has responsibility for managing the WA health system to the extent necessary to provide stewardship, strategic leadership and direction and to allocate resources for the provision of public health services in the State (section 19 of the Act).

As System Manager, the Department CEO purchases health services categorised using the OBM framework set out in Schedule A and other services.

The main roles and responsibilities of the Department CEO under this Agreement are to:

- provide annual allocations and forecasts;
- provide performance management parameters;
- support and collaborate with CAHS to deliver services in accordance with the Act; and,
- oversee compliance, performance and delivery of purchased activity.

Additionally, the Department CEO is responsible for:

- the Department's compliance with the terms of this Agreement and with the legislative requirements of the Act;
- purchasing of services from CAHS that align with the WA Clinical Services Framework (CSF) and its 2020 Addendum, including the Hospital Services matrices and latest underlying demand and capacity modelling;
- maintaining a public record of the CSF;
- monitoring actual activity against endorsed role delineations, including acting as necessary if activity is underdelivered or budget parameters are not maintained;
- undertaking of assurance activities consistent with the Department CEO's identified strategic objectives. The Department CEO may audit, inspect or investigate CAHS for assessing compliance with the Act (section 175);
- providing the overarching strategy for the capital works and maintenance works projects;
- providing CAHS with access to all applicable Department policies and standards. The Department CEO must brief CAHS about matters that CAHS should reasonably be made aware of in order to provide health services in accordance with the terms of this Agreement;
- communication of any proposed amendments to this Agreement or significant events that may result in an amendment to this Agreement; and,
- publication of an abridged version of this Agreement on the WA Health internet site, in accordance with Schedule E8 of the NHRA. Any subsequent amendments to this Agreement will also be published in accordance with Schedule E8 of the NHRA.

3.2 Roles and Responsibilities of the Health Service Provider

The main role of CAHS under this Agreement is to provide the services detailed in the Schedules. The delivery of the services must be in accordance with the performance measures and targets set by the Department CEO in accordance with section 46(3)(d), (e) and (f) of the Act.

CAHS is responsible for providing health and other services at the following facilities:

- Perth Children's Hospital,
- Child Community Health Facilities,
- Child Mental Health Facilities,
- Neonatal Services at King Edward Memorial Hospital,
- Contracted Health Entities providing health services on behalf of CAHS (and sub-contracted Health Entities if applicable), and
- other community-based / non-hospital sites as appropriate.

CAHS will deliver health and other services in accordance with this Agreement. This includes, but is not limited to:

- delivering services in a safe, timely and efficient manner using the standard of care and foresight expected of an experienced provider, noting CAHS may foster innovation through creation of new services within the available budget allocations, and that creation of new services may require consultation with the Department CEO, particularly if the service cannot be funded within the existing budget allocation;
- acting in accordance with the highest applicable professional ethics, principles and standards and demonstrating a commitment to implementing these practices through appropriate training and monitoring;
- briefing the Department CEO about all matters that the Department CEO should reasonably be made aware of. This may include an incident involving a person receiving a service, an issue that impacts on the delivery or sustainability of service, or the ability of CAHS to meet its obligations under this Agreement. Applicable Department policies may also deal with certain matters that the Department CEO must be made aware of, or particular information that must be provided to the Department by CAHS;
- monitoring actual activity delivered against target purchased levels, acting as necessary to ensure delivery of purchased levels is achieved within parameters specified in this Agreement, including active monitoring of variances from target activity levels and immediate notification by CAHS to the Department CEO as soon as it becomes aware that activity variances are likely to occur; and,
- management and delivery of capital works, maintenance works and clinical commissioning as required. The *Procurement Act 2020* provides the framework for procurement of works. Where the Department CEO determines a project should be delivered by CAHS, responsibility will be reflected in the Agreement. The Department CEO may choose to retain responsibility for major or high-risk public hospital projects in which case separate delegation processes will be maintained.

When delivering the health and other services purchased by the Department CEO in this agreement, CAHS is required to comply with (among other things):

- the terms of this Agreement;
- all applicable Department policies and frameworks;
- appropriate coding and classification of activity to conform to the OBM framework, ensuring accurate capture of data and information;
- all standards as gazetted under applicable Acts and standards endorsed by the Department CEO, including but not limited to the Clinical Governance, Safety and Quality Policy Framework which specifies the clinical governance, safety and quality requirements that all HSPs must comply with to deliver effective and consistent clinical care across the WA health system;
- performance targets; and,
- laws including those related to fire protection, industrial relations, employment, health, general safety, procurement and taxation.

Additionally, to assist the Department CEO to fulfil their responsibility to manage the overall WA health system, CAHS will:

- provide data in a timely manner to the Department as required by section 46(3)(f) of the Act and in accordance with the Information Management Policy on the provision of all health services (including health services provided by a Contracted Health Entity and its sub-contractors if applicable). Patient activity data supports and informs the State Budget process, national reporting, system performance management, health service planning, clinical governance, clinical research, health reform, and the purchase of activity within the WA health system. The Patient Activity Data Policy is a key policy of the Information Management Policy Framework, mandating the business rules, data specifications and data dictionaries for admitted, Emergency Department, mental health, and non-admitted activity;
- aid the Department CEO in the undertaking of any audits, inspections or investigations of CAHS for the purpose of assessing compliance with the Act (section 175) whenever and wherever such powers are utilised by the Department CEO;
- comply with a legal process requiring the disclosure of health information in a health information management system to a person or court as requested or directed by the Department CEO under section 217A of the Act; and,
- negotiate the inclusion of terms in its contracts with Contracted Health Entities that provide for the Department CEO to undertake onsite health information investigations and inquiries at the Contracted Health Entity. The terms in the contracts with Contracted Health Entities must also specify that the Contracted Health Entity will supply to the Department CEO information on request and provide access to any systems required to support the investigation or inquiry. Upon review of existing contracts, CAHS must also ensure that these terms are included in updated contracts.

4 RELATIONSHIP WITH OTHER HEALTH SERVICE PROVIDERS

4.1 Health Service Providers May Enter Arrangements or Agree to Provide Services

Section 36D of the Act provides restricted powers for CAHS to enter arrangements on behalf of other HSPs or the State. Section 36E of the Act provides HSPs with the power to enter into a contract or other arrangement to provide services to other HSPs.

The terms of arrangements made pursuant to Sections 36D and 36E of the Act must be consistent with CAHS's obligations under the Act and under this Agreement, including performance standards provided for in this Agreement.

For the purpose of section 48(1)(b) of the Act, CAHS may agree with any HSP for that HSP to provide services for CAHS according to CAHS's business needs.

All clinical incident investigation services must be performed in accordance with the Clinical Incident Management Policy issued by the Department CEO under the Clinical Governance, Safety and Quality Policy Framework.

4.2 Agreements with a Contracted Health Entity

The Department CEO acknowledges CAHS may contract the provision of health services that are required to be performed under this Agreement to a Contracted Health Entity. CAHS must inform the Department CEO prior to engaging a Contracted Health Entity to perform all or part of the health services under this Agreement.

CAHS agrees that engaging a Contracted Health Entity to perform health services will not transfer responsibility for provision of the health services nor relieve it from any of its responsibilities or obligations under the Act or this Agreement, including but not limited to the provision of data.

4.3 Health Support Services

Health Support Services (HSS) provides State-wide support services to HSPs. CAHS must execute a Service Level Agreement (SLA) with HSS for the provision of State-wide support services by HSS to CAHS for the Term of this Agreement by 31 July 2023. The SLA will be developed by HSS with input from CAHS and the Department CEO.

The SLA must set out the services to be provided, roles and responsibilities, authority and accountability, service standards, service reporting, value of service (including price schedules as appropriate), review and change processes, and dispute resolution and escalation processes.

4.4 PathWest

PathWest provides State-wide support services to HSPs. CAHS must execute an SLA with PathWest for the provision of State-wide support services by PathWest to CAHS for the Term of this Agreement by 31 July 2023. The SLA will be developed by PathWest with input from CAHS and the Department CEO.

The SLA must set out the services to be provided, roles and responsibilities, authority and accountability, service standards, service reporting, value of service (including price schedules as appropriate), review and change processes, and dispute resolution and escalation processes.

5 FUNDING AND PURCHASING

The Department CEO will provide activity and budget allocations to CAHS to meet its health and other service delivery obligations under this Agreement in accordance with the Schedules to this Agreement. A summary of the allocations to be provided to CAHS is set out in Schedule B: Summary of Activity and Budget Allocations.

CAHS is to use the activity and budget allocations provided by the Department CEO only for the delivery of services specified under this Agreement. The budget allocations will include direct service costs and the cost of overheads that the Department CEO considers inherent in the delivery of the services.

5.1 Activity

The WA health system ABF operating model provides activity and budget allocations based on the number of patients and the types of treatments at a set price.

5.2 Forward Estimates Contained in this Agreement

For this Agreement, forward estimates for 2024-25 to 2026-27 have been provided. The activity and budget allocation estimates are based on and consistent with the approved budget settings for the WA health system.

5.3 WA Health System Outcome Based Management Framework

The WA health system operates under an OBM Framework pursuant to legislative obligations under section 61 of the *Financial Management Act 2006* and Treasurer's Instruction 904.

The OBM service categories applicable to the WA health system as identified in the WA State Budget Papers are:

1. Public Hospital Admitted Services,
2. Public Hospital Emergency Services,
3. Public Hospital Non-Admitted Services,
4. Mental Health Services,
5. Aged and Continuing Care Services,
6. Public and Community Health Services,
7. Pathology Services,
8. Community Dental Health Services,
9. Small Rural Hospital Services,
10. Health System Management – Policy and Corporate Services, and
11. Health Support Services.

Activity and budget allocations in this Agreement are made within the eleven OBM service categories as applicable and are reflected in Schedules 1–11.

Further detail on the WA health system's OBM Framework can be viewed at:

<https://ww2.health.wa.gov.au/About-us/Policy-frameworks/Outcome-Based-Management>

5.4 Allocation Information Contained in Schedules

Activity and budget allocations provided to CAHS under the terms of this Agreement are provided in the Schedules to this Agreement which establish:

- the activity purchased by the Department CEO;
- the budget allocation provided for delivery of the purchased activity;
- the budget allocation for capital works, maintenance works and clinical commissioning to be undertaken and delivered by CAHS; and,
- an overview of the services required to be provided during the Term of this Agreement.

6 PERFORMANCE EXPECTATIONS

The performance reporting, monitoring, evaluation and management of CAHS in relation to the terms of this Agreement is prescribed in the Performance Policy Framework and Performance Management Policy (PMP).

See: <https://ww2.health.wa.gov.au/About-us/Policy-frameworks/Performance>

6.1 Performance Measures and Operational Targets

The performance indicators, targets and thresholds that support the delivery of the Agreement's operational targets are listed in the PMP. The PMP details performance reporting, monitoring and evaluation processes as well as performance management and intervention processes.

6.2 Evaluation and Review of Performance Results

The PMP is based on a responsive regulation intervention model. The model is a collaborative approach that enables accountability through agreed mechanisms when performance issues have been identified. The performance management components of the PMP comprise:

- on-going review of HSP performance;
- identifying a performance concern and determining the appropriate response and agreed timeframe to address the concern;
- deciding when a performance recovery plan is required and the relevant timeframe;
- determining levels of intervention and when the performance intervention needs to be escalated or de-escalated; and,
- regular performance review meetings held between the Department CEO and CAHS, or representatives of either Party. The frequency of the meetings is determined by the Department CEO and may be increased if performance issues occur. Performance reporting arrangements that enable the Department CEO to monitor and evaluate CAHS's performance are specified in the PMP.

6.3 Performance Data

In accordance with section 34(2)(n) of the Act, CAHS is required to provide performance data for the monthly production of the performance reports as required by the Department CEO.

6.4 Link to Annual Reporting

Annual Reporting is required under the *Financial Management Act 2006*. The Key Performance Indicators (KPIs) within the Annual Report for HSPs are approved by the Under Treasurer after considering an annual OBM submission from the Department CEO. The KPIs are audited by the Auditor General.

Efficiency KPI targets are established on a system-wide level and published in the Government Budget Statements. The Department CEO will determine any CAHS specific targets through a rigorous modelling process that aligns with the Agreement, and other relevant data as appropriate.

The Department CEO mandates the Efficiency and Effectiveness KPI targets for Annual Reporting for each HSP via the annual review of the Outcome Based Management Policy in the Outcome Based Management Policy Framework.

7 SUMMARY OF SCHEDULES

An outline of the activity and budget allocation Schedules that form part of this Agreement for CAHS is provided in Table 1 below.

Table 1: Summary of the Schedules which form part of this Agreement

<p>A. OBM Goals and Outcomes</p>
<p>B. Summary of Activity and Budget Allocations – An overarching summary of the activity purchased and budget allocations provided by the Department CEO for each OBM service category and delivered by CAHS pursuant to the terms of this Agreement.</p> <p>These OBM service categories also include apportioned Financial Products, Health Support Services–Resources Received Free of Charge (HSS-RRFOC) and PathWest-Resources Received Free of Charge (PW-RRFOC).</p> <p>Government Corrective Measures (GCM) and Health Allocation Adjustments (HAA) are identified separately.</p> <p>Also included is a Summary of Asset Investment Program budget allocations provided by the Department CEO for capital works, maintenance works and clinical commissioning to be delivered by CAHS pursuant to the terms of this Agreement.</p>
<p>1. Public Hospital Admitted Services – Outlines the volume of activity and related budget allocations for the term of this Agreement for these health services as well as TTR.</p> <p>Apportioned Financial Products, HSS-RRFOC and PW-RRFOC are identified separately.</p>

Notes:

- OBM Services 01 to 03—2022-23 WAUs are presented in the 2023-24 Framework.
- OBM Service 04—2022-23 WAUs are presented in the 2022-23 Framework and 2023-24 WAUs in the 2023-24 Framework.
- Less income is an estimated value of revenue from sources other than State Appropriations.

CAHS—Commonwealth and State contributions to the National Health Funding Pool

	National Efficient Price (as per IHPA)	Total Expected NWAUs	Total Contribution	Commonwealth		State
				Contribution	Funding Rate	Contribution
ABF Service group	(NEP \$)	(#)	(NEP \$)	(NEP \$)	(%)	(NEP \$)
Acute Admitted	6,032	44,629	269,203,329	112,448,098	41.8	156,755,231
Admitted Mental Health	6,032	2,363	14,251,143	5,952,801	41.8	8,298,342
Sub-Acute	6,032	159	959,435	400,763	41.8	558,672
Emergency Department	6,032	8,877	53,547,549	22,367,183	41.8	31,180,366
Non Admitted	6,032	14,792	89,224,256	37,269,591	41.8	51,954,665
Total ABF	6,032	70,820	427,185,712	178,438,435	41.8	248,747,277
Non-ABF Service group			(\$)	(\$)	(%)	(\$)
Non Admitted Mental Health			5,942,939	2,096,018	35.3	3,846,921
Non Admitted CAMHS			63,106,068	12,090,838	19.2	51,015,230
Non Admitted Home Ventilation			12,384,624	5,573,081	45.0	
Rural CSO sites			—	—	—	—
Teaching, Training and Research			34,240,951	13,503,026	39.4	20,737,925
Total Block Funding			115,674,582	33,262,964	28.8	75,600,076

Note:

This schedule relates to Commonwealth "in-scope" activity only, it is based on the NEP value and is a subset of the Summary of Activity and Funding Schedule of the Service Agreement.

WA funds Ventilation Services at CAHS via ABF although the Commonwealth funds these same services as block.
