

## Passengers – Stay COVID safe on your ride

Get vaccinated as soon as it's your turn

Stay home if sick and get tested

Physical distance whenever possible and wash or sanitise hands often

Cover coughs

Open windows – get fresh air

Use contactless payment

If you're going for COVID-19 testing or into quarantine and you need to take a taxi or rideshare vehicle to get there, make sure you keep yourself and others safe:

Book a large vehicle

You MUST tell the driver if you are in quarantine, going for testing or have COVID-19 symptoms before getting into the vehicle

Both you and the driver MUST wear a mask

Use hand sanitiser before getting into the vehicle

Sit as far away as possible from the driver

You must handle your own luggage
