(1) (a) All appointments shall be on 5 year contracts unless there is written agreement to the contrary between the employer and practitioner.

(b) To meet short term exigencies, the employer may employ a practitioner on a short term contract of up to six months. In such cases the practitioner shall not be entitled to receive leave benefits (including leave for public holidays), but shall instead be paid a loading of 25% on the base salary. Penalty rates shall be calculated exclusive of the loading.

(2) (a) Each practitioner shall be appointed for a probationary period of six months. During the probationary period either the employer or the practitioner may give four weeks’ notice of termination or resignation of employment or such lesser period as agreed. hospital / departmental purposes

(D) To the practitioner (exclusive of GST)

(b) The statement shall include the following certification at the end of the
statement:

Accountants Certification

I certify that the above statement is correct in all relevant particulars and
associated records have been checked to ensure all monies due to the hospital
have been accurately and correctly calculated and accounted for in accordance
with the applicable Australian Accounting Standards for the financial year
ending 30 June xxxx. At the date of signing I am not aware of any
circumstances which would render the particulars misleading or inaccurate.

............................................................. Signature

............................................................. Date
Practitioner’s Certification

“I certify that this statement is submitted in compliance with the Private Practice provisions of the Industrial Agreement. At the date of signing I am not aware of any circumstances which would render the particulars misleading or inaccurate.”

............................................................. Signature

............................................................. Date

(d) The Employer and practitioner may agree in writing that the amount payable to an approved special purpose account for hospital/departmental purposes shall be paid on a quarterly basis in which case uncertified quarterly statements in the above general form shall be provided. Any end-of-year adjustment shall be made by payment accompanying the certified annual statement.

(e) A practitioner who does not comply with the provisions of this subclause may have the right to render accounts directly to private patients withdrawn and the Employer may direct that the hospital act as the agent in the rendering of accounts.

(f) For taxation purposes the earning of private practice income through the election of Arrangement B is deemed an enterprise and it is mandatory for the medical practitioner to obtain an Australian Business Number and be registered for GST purposes if the turnover exceeds the prescribed amount per annum. A medical practitioner who has entered into a Recipient Created Tax Invoice arrangement with the hospital must inform the hospital if the GST registration is cancelled as GST does not apply to the transaction once registration is cancelled.

(g) A medical practitioner who has obtained an ABN but is not registered for GST is entitled to claim the GST inclusive value of the Medical Defence Premium from the hospital.

(h) In instances where the hospital acts as an agent in the rendering of accounts, GST is applicable to the 17.5% administration and collection costs fee when it is paid to the hospital.

(6) A practitioner may ask the hospital to act as agent in rendering accounts to private patients after the practitioner has assessed the fee for services. In such cases the 17½% for administration and collection costs shall be retained by the hospital.

(7) (a) If individual or agreed group contributions are insufficient to permit drawings of 16% of the practitioner's annual salary, payment shall be made up to 16% of the salary from the monies which would otherwise have been appropriated as facility charges.

In such circumstances payment to the 16% of salary level shall be made once each year (for the financial year ended 30 June) following receipt of a certified statement from the practitioner to the hospital in accordance with subclause (4).
(b) If individual or agreed group contributions are sufficient to permit drawings of 16% but less than 25% of the practitioner's salary, payment shall be made up to 25% of salary from the monies which would otherwise have been appropriated as facility charges.

In such circumstances payment to the 25% of salary level shall be made once each year for the financial year ended 30 June following receipt of a certified statement from the practitioner to the hospital in accordance with subclause (4).

(c) In no case shall the Employer be liable to pay, in respect of any hospital, more than the total amount that hospital received in that financial year as facility charges.

(8) Amounts paid to practitioners under this Arrangement shall not be regarded as salary for the purpose of calculating superannuation entitlements nor for the purpose of any other entitlement under this Agreement.

30. PROFESSIONAL DEVELOPMENT LEAVE

(1) Professional Development Leave

(a) A practitioner shall be entitled to a maximum of 3 weeks paid professional development leave, during each year of continuous service.

(b) Such leave is for the purposes of attending conferences, undergoing additional training or courses of study relevant to maintaining or enhancing an individual’s scope of practice and which is of benefit to the hospital. Such attendances shall be inclusive of travel time.

(c) This leave shall not accumulate for more than two years. If the whole or part of this leave is not taken the entitlement to untaken leave shall lapse unless deferred by agreement between the practitioner and the employer.

(d) Where attendance at a conference, meeting or like event is required in an official capacity in the course of their employment it shall not be counted as part of a practitioner’s entitlement under this Clause.

(e) No more than 2 weeks leave shall be taken in any year unless that period which is in excess of 2 weeks can be taken at no cost to the hospital and there is no requirement to provide cover for the practitioner’s absence.

(2) Overseas Professional Development Leave

(a) A practitioner shall be entitled to an additional 5 weeks paid leave after each five years continuous service for the purpose of overseas training, education and study.

(b) The taking of overseas professional development leave may be deferred by mutual agreement, but no practitioner shall be allowed to take accumulated leave in excess of 10 weeks in any one period.
(c) Overseas professional development leave may be taken wholly or partly within Australia by agreement between the employer and practitioner.

(d) A practitioner may apply to take overseas study leave in advance, but if their employment is terminated before the end of the qualifying period they shall repay the employer the value of the leave and the funding source any other amounts received. The employer may deduct the amount determined by the funding source as repayable and repay the funding source from money due to the practitioner by reason of the other provisions of this Agreement at the time of termination. The funding source may waive all or part of the amount repayable.

(3) The granting of leave is conditional on the leave being used for professional development and the hospital being satisfied that the proposed conference or course of study is relevant and of benefit to the hospital. Practitioners taking professional development leave must prepare a written report for their peers and the Hospital.

(4) Unless otherwise agreed, not more than 50% of medical staff of any specialty or department are to be absent at any one time on Professional Development Leave. Every effort shall be made to ensure appropriate services are provided when staff are absent for the purposes of Professional Development.

(5) Subject to this clause, conference and overseas study leave benefits are not available as monetary payments in lieu.

(6) Professional Development Allowance

(a) Practitioners engaged under Arrangement A shall receive the following annual Professional Development Allowance payable pro rata fortnightly from the first pay period on or after the dates specified.

(b) The allowance is increased in line with the general percentage salary adjustments.

(7) (a) A practitioner who, at the time of the commencement of this Agreement was entitled to apply to a teaching hospital clinical staff education fund for funding of any form of accrued or pro rata professional development leave prescribed under this Agreement, shall retain the entitlement to apply for funding notwithstanding that under this Agreement the Professional Development and Expense Allowance for service after 1 April 2007 is paid.

(b) A practitioner is not entitled to payment from more than one source for the same entitlement. The proscription does not apply to funding from other than hospital funds.
The rules which apply to administration of the teaching hospital clinical staff education fund shall be applied as if the practitioner had elected Arrangement B with respect to entitlements accrued prior to the commencement of this Agreement. This provision also applies with respect to prior service contributing to entitlements yet to be accrued, on a pro rata basis.

(8) Arrangement B Funding for Continuing Professional Development Leave

(a) Practitioners shall be eligible to apply for funding from the Special Purposes Account for payment, in respect of each period of Continuing Professional Development Leave accrued under Arrangement B, for reasonable travel, registration and accommodation expenses in accordance with this clause for:

(i) the actual cost of air fares up to a maximum of Business Class rates; with a maximum of two air fares paid in respect of each completed five years continuous service where overseas study leave is taken in broken periods with the employer’s permission; and

(ii) a travelling allowance as follows:

(A) the actual cost of reasonable accommodation and expenses upon production of receipts; or

(B) an alternative system of payment agreed between the employer and the practitioner.

(iii) A sessional / part time practitioner shall be paid the amount specified in paragraph (i) and pro rata of the amount specified in paragraph (ii).

(iv) Fares and expenses associated with leave under this clause shall be paid only in accordance with the policy governing the administration of the special purposes account. The employer shall in no way be liable for payment of fares and expenses for practitioners currently or previously under Arrangement B.

(9) Arrangement B Professional Expenses Allowance

A practitioner engaged under Arrangement B shall be paid, pro rata fortnightly, a Professional Expenses Allowance of 3% of the base salary of a Consultant Year 6 (previously cited level 21).

(10) Leave is to be taken at a mutually convenient time and the employer shall not unreasonably refuse an application for leave that has been properly made.

(11) The balance of Professional Development Leave accrued prior to the commencement of this Agreement will be carried forward.

(12) Professional Development Leave shall be paid at the rate of pay applicable at the time the leave is taken.
31. **STAFFING**

(1) Practitioner staffing levels shall be determined by the employer, having regard to contemporary benchmarking and best practice parameters.

(2) Where a practitioner:

(a) resigns, is terminated, transfers or otherwise vacates a position; and

(b) the employer determines that the position will be filled,

action to fill the vacancy shall be commenced, in consultation with the Head of Department, as soon as reasonably practicable.
PART 4 - GENERAL PROVISIONS

32. SHIFT, WEEKEND AND PUBLIC HOLIDAY PENALTIES

(1) Hours worked between 6pm and 12 midnight on any weekday shall be paid at the rate of 120%.

(2) Hours worked between 12 midnight and 8am on any weekday shall be paid at the rate of 125%.

(3) Hours worked on a Saturday shall be paid at the rate of 150%.

(4) Hours worked between midnight Saturday and 8am Monday shall be paid at the rate of 175%.

(5) Hours worked between midnight at the commencement of a public holiday and 8am on the day after a public holiday shall be paid at:

(a) the rate of 250%;

(b) if the employer and practitioner agree, the rate of 150% and in addition the practitioner shall be allowed to observe the holiday on a day acceptable to the employer and the practitioner, but no more than five days may be accumulated at any one time.

33. ON CALL AND CALL BACK

(1) On Call

(a) For the purposes of this Agreement a practitioner is on call when the practitioner is rostered by the Employer to remain readily contactable and available to return to work outside of the practitioner’s normal hours of duty.

(b) Where a practitioner, who is not directed to be on call, is provided with a mobile phone for other business purposes and is contacted on a casual basis outside of the practitioners normal hours of duty, the on call allowance prescribed by this clause is not payable. In such cases the practitioner is under no obligation to return to work.

(c) (i) Practitioners shall be rostered on call in accordance with clinical need by the Head of Department or if there is no Head of Department by the Director of Medical Services or the Chairman of the Medical Advisory Committee.

(ii) No practitioner shall be required to be on call more frequently than one day in three. However, with the written agreement of the Association, or in an emergency, an on call roster of more than one in three may be agreed.
(d) (i) A doctor in training rostered on call shall be paid an hourly allowance of 18.75% of the ordinary base hourly rate for Registrar, Year 4.

(iii) Payment in accordance with this sub clause shall not be made with respect to any period for which a practitioner receives any payment for call back.

(iv) The adjustments in the allowance rates reflect increases in line with general percentage salary increases.

(e) Annualised payments.

(i) If an agreement between the Employer and all practitioners concerned is reached, the relevant on call payment may be annualised and paid fortnightly. There must be no additional cost to the Employer as a result.

(ii) The Employer or practitioners may, by giving four weeks written notice, withdraw from such an annualised payment system.

(f) Responsibilities of Practitioners Rostered On Call

Practitioners rostered on call must be available for consultation and recall to the Hospital/Health Service. The onus lies on the practitioner, once they are rostered to either negotiate with their peers about altering the roster, or to cover the work themselves. The onus on finding practitioners to cover the roster once the roster has been determined, should not fall back to the manager of the service, but should be borne by the particular practitioner rostered if they wish to change the roster and shall not result in additional cost to the employer. This requirement does not apply in the event of sickness or personal emergency, however the practitioner is required to notify the manager of their absence as soon as possible.

(g) Where practicable on call rosters shall be posted at least 14 days in advance.
Call Back requiring attendance at the workplace.

(a) A Doctor in Training recalled to work shall be paid a minimum of three hours for a call back as follows:

(iii) for work on any day between midnight and 6.00 am at the rate of 200% of the practitioner’s ordinary base hourly rate.

(i) for work on any day between 6.00 am and midnight at the rate of 150%, of the hourly rate prescribed at (v) hereunder.

In PSAAG 5 of 2011 the hourly rates corresponding to those above were calculated by increasing the base hourly rates, as then prescribed in PSAAG 7 of 2008, by the equivalent of 20%, 30% and 40% of level 24 effective from the prescribed dates and then rounding down to the nearest whole dollar. In this Agreement the adjustments in the allowance rates reflect increases in line with the general percentage salary increase rounded to the nearest dollar.
(c) The practitioner shall not be obliged to work for three hours if the work for which they are recalled is completed in less time, provided that if the practitioner is called out and recommences work within three hours of starting work on a previous recall the practitioner shall not be entitled to a further minimum three hour payment.

(d) If a practitioner is recalled to work, payment for the call back shall commence from:

(i) In the case of a practitioner who is on call, from the time the practitioner starts work;

(ii) In the case of a practitioner who is not on call, the time the practitioner embarks on the journey to attend the call. Provided that if a practitioner is recalled within two hours prior to commencing normal duty, any time spent in travelling to work shall not be included with actual duty performed for the purpose of determining payment under this sub clause.

(e) Subject to the minimum three hours payment, payment for the call back shall cease when the work is completed or when the practitioner commences normal duty, whichever occurs first.

(3) Call Back not requiring attendance at the workplace.

(a) A practitioner who is rostered by the employer –

(i) on call for call-back requiring attendance at the workplace at one or more metropolitan public hospitals; and

(ii) simultaneously rostered on-call for tele-medicine / tele-consultation for multiple metropolitan public hospitals and for multiple WA Country Health Service public hospitals; and

(iii) who is recalled to duty and undertakes all the required work without going to the workplace shall be paid for a minimum of one hours work at the ordinary base hourly rate or for the actual time worked if work continues beyond one hour, provided that for work:

(A) between 00:00 hours on Saturday and 08:00 hours on the following Monday, payment will be at 150% of the ordinary base hourly rate; and

(B) on Public Holidays payment will be at the rate of 250% of the ordinary base hourly rate.

(b) Second and subsequent recalls to duty which occur within an hour of commencement of a call for which an entitlement to payment has already accrued do not attract additional payments unless actual time worked continues beyond one hour in which case payment shall be made for the actual time worked.
(c) An entitlement to call back payment does not arise unless the practitioner is rostered on call pursuant to this sub clause.

(4) A practitioner who is required to use their motor vehicle when recalled to work shall be reimbursed all expenses incurred in accordance with the provisions of Clause 46 - Travel Allowance.

(5) A practitioner who is required to use their telephone after being contacted by the employer shall be reimbursed reasonable expenses for the cost of calls on application and presentation of satisfactory evidence that the call costs were incurred.

(6) Notwithstanding the provisions of this clause, if the Employer and the Association agree, other arrangements may be made for compensation of on call and call back pursuant to Clause 7 – Agreement Flexibility.

34. ANNUAL LEAVE

(1) A full-time practitioner shall be entitled to 160 hours annual leave per annum. The entitlement accrues pro rata on a weekly basis.

(2) (a) Where a practitioner takes a week of annual leave, this will be debited as 40 hours leave.

(b) Where a practitioner takes a day of annual leave this will be debited as 8 hours leave unless the practitioner was rostered to work other than 8 hours in which case the practitioner will be debited the hours that they would have been rostered for that day. Provided that annual leave will not be utilised for any absence beyond full-time hours. Where a practitioner makes an application for annual leave for a period that is or includes a period of rostered overtime and the absence is approved by the employer, the period of rostered overtime will be changed to un-rostered hours. Annual leave credits shall not be applied to any period of un-rostered hours.

(3) Additional Leave

(a) On-call

(i) A practitioner can accrue up to a maximum of 40 hours of additional annual leave.

(ii) For each completed period of 120 hours rostered on-call a practitioner shall accrue 8 hours additional annual leave.

(b) Working Sundays and/or Public Holidays

(i) A practitioner can accrue up to a maximum of 40 hours of additional annual leave.

(ii) Practitioners who are rostered to work their ordinary hours on Sundays and/or public holidays during a qualifying period of employment for annual leave shall be entitled to receive an additional 8 hours leave for each seven ordinary shifts so worked.
(c) The maximum amount of additional leave that can be accrued under this clause is 40 additional hours leave during a qualifying period of employment.

(4) Provided that a practitioner who is entitled to additional leave in accordance with subclause (3) above, the maximum combined entitlement shall be 40 hours additional leave during a qualifying period of employment.

(5) A practitioner who during a qualifying period towards an entitlement of annual leave was employed on a part time or sessional basis may elect to take a lesser period of annual leave calculated by converting the part time or sessional service to equivalent full time service.

(6) The annual leave prescribed in this clause may be split into portions, and may be taken in periods of one day or less, by agreement between the Employer and the practitioner.

(7) Accrued annual leave may, by agreement between the Employer and practitioner, be taken before the completion of 52 weeks continuous service.

(8) Annual leave may also, by agreement between the Employer and practitioner, be taken in advance of it having accrued. In such a case the advance payment shall be offset against any future leave accrual or against monies otherwise payable to the practitioner on termination. No refund is required in the event of the death of the practitioner.

(9) All annual leave taken shall be at the rate of salary applicable at the time of taking such leave.

(10) When the convenience of the hospital is served, the employer may approve the deferment of the commencing date for taking annual leave, but such approval shall only remain in force for one year. The employer may renew the approval for a further period of a year or further periods of a year. If, as a result, the practitioner accumulates more than three years entitlement, the employer may impose conditions on the taking of the leave including that it be taken at the operational convenience of the Hospital.

(11) The employer undertakes to ensure adequate staffing levels to enable practitioners to take their accrued annual leave. The employer shall confirm in writing when a practitioner’s annual leave entitlement may be taken within two weeks of receipt of the practitioner’s written application for leave.

(12) Annual Leave Loading has been annualised into the base salary.

(13) Practitioners upon request shall receive their ordinary pay and any allowances due to them for the period of their annual leave prior to going on such annual leave.

(14) (a) If a practitioner lawfully leaves their employment, or their employment is terminated by the employer through no fault of the practitioner, before the practitioner has taken annual leave to which they are entitled, the practitioner is to be paid for the untaken leave.
(b) If any practitioner leaves their employment, or their employment is terminated by the employer, in circumstances other than those referred to in paragraph (a), before the practitioner has taken annual leave to which they are entitled, the practitioner is only to be paid for any untaken leave that relates to a completed year of service.

(c) Payment in lieu of any untaken annual leave shall be made on the death of a practitioner.

(15) In the case of a practitioner transferring from one hospital to another hospital the annual leave entitlement shall be transferred.

(16) A practitioner who has accrued more than four weeks annual leave may by written agreement with the employer cash out some or all of the excess.

(17) Purchased Leave – 42/52 Salary Arrangement

(a) At the request of a practitioner the Employer may agree to an arrangement ("the arrangement") whereby the practitioner can take a reduced salary spread over 52 weeks of the year and receive the following amounts of purchased leave:

(b) Both the agreement to the arrangement and the time at which the additional leave is taken will be dependent on the operational requirements of the department where the practitioner works at the particular time.

(c) Purchased leave will not accrue from one year to the next, provided that the practitioner is to be entitled to pay in lieu of the purchased leave not taken.

(d) Unless otherwise agreed between the practitioner and the Employer, a practitioner who enters into an arrangement under this sub clause does so in blocks of 12 months.
(e) For the purposes of this sub clause and without limiting the meaning of the term, “operational requirements” may include:

(i) the availability of suitable leave cover, if required;
(ii) the cost implications;
(iii) the impact on client/patient service requirements;
(iv) the impact on the work of other employees; and
(v) the practitioner’s existing leave liabilities.

(f) The portion of the practitioner’s salary to be forfeited shall be calculated as a fortnightly amount and their fortnightly salary shall be decreased by that amount for the duration of the arrangement.

(g) All annual leave taken during the course of the arrangement shall be paid at the reduced rate.

(h) The additional leave shall continue to accrue while the practitioner is on leave during the course of the arrangement.

(i) The reduced salary shall be used for all purposes during the course of the arrangement.

(j) The additional leave shall not attract leave loading.

(k) It is the responsibility of the practitioner to investigate the impact of any of the arrangements under this clause on their allowances, superannuation and taxation, and the options, if any, available for addressing these.

(18) Double the leave on half pay

(a) Subject to operational requirements and with the agreement of the employer, a practitioner may elect to take twice the period of any portion of their annual leave at half pay.

(19) Less leave, more pay, cashing out leave

(a) Unless otherwise agreed between the practitioner and the employer, a practitioner who enters into an arrangement under this subclause does so in blocks of 12 months.

(b) If at the commencement of each 12 month block of this arrangement a practitioner has a minimum of four weeks of annual leave available to be taken in that year, the practitioner may opt to forfeit the accrual of 1 or 2 weeks annual leave in favour of receiving additional salary to the equivalent value of the leave that has been forfeited (‘the arrangement’).

(c) The increased salary shall be used for all purposes during the course of the arrangement.
35. **PUBLIC HOLIDAYS**

(11) The cancellation of salary packaging will not cancel or otherwise effect the operation of this Agreement.

(i) the importance of clinical independence in the context of the appropriate clinical governance framework and the primacy of the professional responsibility of practitioners to their patients.

(ii) that practitioners are professionally responsible and accountable to the statutory authorities including the Medical Board established under the Health Practitioner Regulation National law (WA) Act 2010.

(iii) that practitioners are responsible and accountable under the ethical codes and standards of relevant colleges and professional associations and under the Public Sector Management Act.

(iv) the need to provide best practice services and for practitioners to participate in the development and management of the health system and particular services.

(b) The employer undertakes to provide the appropriate time and resources for practitioners to meet these responsibilities.
(2)  (a)  Practitioners shall undertake such professional and other duties as are from time to time prescribed by the employer at each of the facilities in which the practitioner from time to time works.

(b) Without limiting the generality of the foregoing or the primacy of the job descriptions, policies and procedures the employer may from time to time prescribe, practitioners agree to work diligently to improve productivity and efficiency and this work shall include but is not limited to:

(i) All practitioners with the ability to charge private and compensable patients and others on whom a fee can legitimately be raised will maximise their rights to bill. The health service will provide timely assistance to mutually achieve this goal.

(ii) Heads of Departments will ensure that practitioners at all levels will adhere to activity and cost of service targets that are set for their departments under activity based funding, as determined and adjusted from time to time through the State budget. In doing so, practitioners will undertake processes of continuous improvement in terms of efficiency, effectiveness and quality and safety of services.

(iii) All practitioners will work with and promote the targets for emergency department and elective surgery performance under the National Emergency Access Target (NEAT) and National Elective Surgery Target (NEST) policies.

(iv) All practitioners will work with the hospital/health service to achieve the 10 mandated standards of the Australian Commission on Safety and Quality in Healthcare.

(v) All practitioners who have accrued in excess of 2 years of annual leave will apply to take and will take at the operational convenience of the hospital sufficient leave to ensure their annual leave does not exceed 2 years entitlement. Provided that where practitioners have accrued extensive periods of leave and are not able to reduce their entitlement as required by this clause due to operational requirements or extenuating personal circumstances, a leave management plan will be agreed with the Head of Department or Director of Medical Services for taking the leave. Leave vacancies will not be back filled for leave that is two weeks or under except on urgent clinical or service grounds and only then on the approval of the hospital or health service Executive Director.

(vi) All practitioners will support and be actively involved in assisting in the implementation of health and hospital reforms including the establishment and operations of new facilities including but not limited to the Fiona Stanley Hospital and Perth Children's Hospital.

(3) Performance Management

The parties are committed to operating appropriate Performance Management Systems to assist practitioners and hospitals in providing quality services and positively addressing issues. The key component of this system is the regular involvement of all medical staff in performance appraisal.

(4) Teaching

(a) The parties acknowledge the important role of practitioners in providing training of doctors in training in the achievement and maintenance of a sufficient medical workforce. It is further acknowledged that adequate levels of training for doctors in training are necessary to the maintenance of acceptable standards of quality and safety.

(b) The employer may require a practitioner, excluding interns, to engage in medical education/teaching as directed.

53. INTRODUCTION OF CHANGE

(1) (a) If the employer has made a definite decision to introduce major changes in production, programme, organisation, structure or technology that are likely to have significant effects on practitioners, the employer shall notify the practitioners who may be affected by the proposed changes and the Association.

(b) "Significant effects" include termination of employment, major changes in the composition, operation or size of the employer's workforce or in the skills required; the elimination or diminution of job opportunities, promotion opportunities or job tenure; the alteration of hours of work; the need for retraining or transfer of practitioners to other work or locations and restructuring of jobs.

If this Agreement provides for alteration of any of the matters referred to herein an alteration shall be deemed not to have significant effect.
(a) The employer shall discuss with the practitioners affected and the Association, inter alia, the introduction of the changes referred to in subclause (1) hereof, the effects the changes are likely to have on practitioners, measures to avert or mitigate the adverse effects of such changes on practitioners and shall give prompt consideration to matters raised by the practitioners and/or the Association in relation to the changes.

(b) The discussion shall commence as early as practicable after a firm decision has been made by the employer to make the changes referred to in subclause (1) hereof.

(c) For the purposes of such discussion, the employer shall provide to the practitioners concerned and the Association, all relevant information about the changes including the nature of the changes proposed; the expected effects of the changes on practitioners and any other matters likely to affect practitioners, but the employer shall not be required to disclose confidential information the disclosure of which would be inimical to their interests.

54. DISPUTE SETTLING PROCEDURES

(1) Subject to Clause 4 - No Further Claims, to the provisions of the Industrial Relations Act, 1979 and Clause 53 - Introduction of Change, any questions, disputes or difficulties raised by a party to this Agreement, shall be settled in accordance with the following procedures.

(2) If the matter is raised by a practitioner, or a group of practitioners, the following steps shall be observed -

(a) The practitioner(s) concerned shall discuss the matter with the Head of Department. If the matter cannot be resolved at this level the Head of Department shall, within three working days, refer the matter to the Director of Medical Services and the practitioner(s) shall be advised accordingly.

(b) The Director of Medical Services shall, if so able, answer the matter raised within one week of it being referred and, if the Director of Medical Services is not able, refer the matter to the Hospital Executive for its attention, and the practitioner(s) shall be advised accordingly.

(c) If the matter has been referred in accordance with paragraph (b) above the practitioner(s) or the appropriate Association hospital medical practitioner representative shall notify the Association, to enable the opportunity of discussing the matter with the employer.

(d) The employer shall, as soon as practicable after considering the matter before it, advise the practitioner(s) or, if necessary, the Association of its decision. Such advice shall be given within one month of the matter being referred to the employer.

(e) If the parties agree that a matter is non-industrial it may by agreement be referred to other appropriate bodies (e.g. relevant Colleges) for advice and/or assistance.
(f) Nothing in this procedure shall prevent the parties agreeing to shorten or extend the periods prescribed.

(3) Subject to Clause 4 - No Further Claims, should a question, dispute or difficulty remain in dispute after the above processes have been exhausted the matter may:

(a) be referred by either party to the Western Australian Industrial Relations Commission (the persons involved in the question, dispute or difficulty must confer among themselves and make reasonable attempts to resolve questions, disputes or difficulties before taking these matters to the Commission); or

(b) if the parties agree, be referred to another independent arbitrator chosen by the parties or as a last resort nominated by the Western Australian Industrial Relations Commission. In such a case:

(ii) the employer shall meet the costs of the arbitration, but if the arbitrator determines that a claim is frivolous or vexatious, the arbitrator may assign the costs of the arbitration (but not the costs of representation) against the claimant or apportion them in any manner between the parties. The parties undertake to accept the arbitrated decision as final and binding.

(4) System wide issues shall be dealt with by discussions between the appropriate Association official(s) and employer representative(s). Should a matter remain in dispute after discussions have been exhausted it may be dealt with in accordance with subclause (3).

(5) While the above procedures are being followed no party shall take action, of any kind, which may frustrate a settlement in accordance with the above procedures. The status quo (i.e. the condition applying prior to the issue arising) shall remain until the issue is resolved in accordance with the above procedures.

(6) If the employer seeks to discipline or terminate a practitioner the principles of natural justice shall apply and the following steps shall be observed:

(a) If a practitioner commits a misdemeanour, the practitioner’s immediate supervisor or any authorised medical practitioner may reprimand the practitioner so that the practitioner understands the nature and implications of their conduct. The practitioner has a right to be represented when being reprimanded.

(b) The first two reprimands shall take the form of warnings and, if given verbally, shall be confirmed in writing as soon as practicable after the giving of the reprimand.

(c) Should it be necessary, for any reason, to reprimand a practitioner three times, the contract of service shall, upon the giving of that third reprimand, be terminable in accordance with the provisions of this Agreement.
(d) This procedure shall not limit the right of the employer to summarily dismiss a practitioner for misconduct. Nor shall it limit the right of a practitioner to refer a claim for alleged wrongful or unlawful termination to a Board of Reference.

(7) A Board of Reference constituted pursuant to this Agreement is not a Board of Reference within the meaning of the Industrial Relations Act 1979 and nothing in this agreement shall be construed as meaning any party is obliged to agree to the establishment of the Board of Reference constituted under the Industrial Relations Act 1979. A decision of a Board of Reference constituted pursuant to this Agreement is not binding on the employer or a practitioner.
