Mindfulness art templates

These templates can be used at community events to encourage women to discuss issues related to cervical cancer prevention. You can print multiple copies of this document for women to colour and decorate.

These templates can be adapted to suit your needs e.g. incorporated with other WA Cervical Cancer Prevention Program resources (Bunting kits, Quiz activity template) and/or printing in various sizes (A4, A3).

Additional key messages about the importance of regular cervical screening can be accessed at www.healthywa.wa.gov.au/cervicalscreening
The Cervical Screening Test.
More accurate. Less often.
