

Government of **Western Australia**  
**North Metropolitan Health Service**  
**WA Cervical Cancer Prevention Program**

# Fact display posters

These posters can be printed and used to display key facts about cervical cancer prevention as part of an information stall.

The posters can be adapted to suit your needs e.g. by including the logo of your organisation and/or printing in various sizes (A4, A3).

Additional messages and information about the importance of regular cervical screening can be accessed at <http://healthywa.wa.gov.au/cervicalscreening>

# **Did you know?**

**Screening with a Cervical Screening Test every 5 years is more effective than, and just as safe as, screening with a Pap smear every 2 years**

# **Did you know?**

**The two-yearly Pap smear has  
been replaced by a five-yearly  
Cervical Screening Test for  
women aged 25 to 74**

# **Did you know?**

**The Cervical Screening Test looks for human papillomavirus (HPV), which causes nearly all cervical cancers**

# **Did you know?**

**For most women, your first  
Cervical Screening Test will be  
two years after your last Pap  
smear**

**Did you know?**

**Women who have had the HPV vaccine also need to have regular Cervical Screening Tests**

# **Did you know?**

**The procedure for having a  
Cervical Screening Test is the  
same as the procedure for  
having a Pap smear**
