1. Health Service Provider Delivery Commitment

This Service Agreement sets out the shared intention to work in partnership to improve health outcomes for all Western Australians and ensure the sustainability of the Western Australian public health system.

The Parties agree that the Department of Health (the Department) and the Health Service Provider will work in partnership to:

1. improve patient access to services and public hospital efficiency
2. improve standards of clinical care
3. improve system performance
4. improve system transparency
5. improve accountability for financial and service performance.

This Service Agreement is in accordance with enabling Western Australian (WA) Legislation. The WA Health System has the meaning given under Section 19(1) of the *Health Services Act 2016*. The Department Chief Executive Officer (CEO) of Health is recognised as the System Manager of the WA Health System under Section 19(2) of the *Health Services Act 2016*. Department CEO and the Health Service Providers must enter into a Service Agreement for the provision health services as per Section 46 of the *Health Services Act 2016*.

The Service Agreement is also in accordance with the *National Health Reform Agreement (2011)*. The Department, through the Department CEO, will retain responsibility for system-wide coordination and policy; resource acquisition, allocation and stewardship; purchasing and regulation. This Service Agreement is to be read in conjunction with the Purchasing and Resource Allocation Policy Framework, Performance Policy Framework and the Service Agreement Management Policy (the Policy).

The Parties hereby confirm their commitment to this Service Agreement. In signing the 2016-17 Service Agreement, the Department CEO notes the following:

1. risks identified by the East Metropolitan Health Service (EMHS) in achieving the budget parameters set in the 2016-17 Service Agreement
2. EMHS will make every effort to achieve activity targets within the budget provided
3. regular monthly meetings will be set to best understand the current issues/risks and progress being made to mitigate them
4. the establishment of a Financial Program Board and Financial Recovery Plan to identify and manage the necessary steps to operate within budget parameters
5. a letter will accompany the Service Agreement that recognises the key risks and challenges of the EMHS.

The Department CEO agrees to provide funding and other support to the EMHS as outlined under '*Role of the Department CEO*' in the Policy Framework and associated Policy. The EMHS agrees to meet the service obligations and performance requirements outlined under '*Role of the Health Service Provider*' as outlined in the Policy Framework and associated Policy.

The Department CEO will continue to emphasise, as a priority, the importance of state and national safety and quality standards across the WA Health System. This Service Agreement recognises the priority commitment that the EMHS has in delivering improvements in safety and quality for health service provision—consistent with the level of care consumers would expect from WA Health Service Providers

Execution

Executed as a Service Agreement in Western Australia.

Parties to the Agreement:

Department CEO

Dr David J Russell-Weisz
Director General
Department of Health

Date: 1 July 2016

)
)

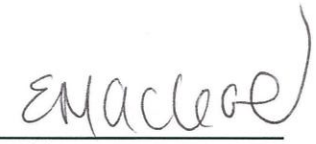

Mr Ian Smith PSM
Board Chair
East Metropolitan Health Service

Date: 1/7/16

Signed: 

Ms Elizabeth MacLeod
Chief Executive
East Metropolitan Health Service

Date: 01/07/16

Signed: 

2. Background

This Service Agreement is between the Department CEO as the System Manager of the WA Health System (herein referred to as 'WA Health') and the East Metropolitan Health Service (EMHS). Both parties acknowledge that this Service Agreement follows frameworks, policies, guidelines and plans as outlined below:

- WA Health Strategic Intent 2015-2020
- Clinical Services Framework (CSF) 2014-2024
- Purchasing and Resource Allocation Policy Framework
- Service Agreement Management Policy
- Performance Policy Framework
- WA Clinical Governance Framework
- WA Strategic Plan for Safety and Quality 2013-2017
- National Safety and Quality Health Service Standards
- Research Policy Framework
- Clinical Teaching and Training Policy Framework
- WA Aboriginal Health and Wellbeing Framework 2015-2030
- WA Health Information and Communications Technology (ICT) Strategy 2015-2018
- ICT Policy Framework.

WA Health Strategic Intent 2015-2020

The Strategic Intent defines WA Health's overarching vision, values and priorities.

WA Health's vision is *delivering a safe, high quality, sustainable health system for all Western Australians.*

WA Health's Code of Conduct identifies the values that are fundamental in how employees perform their work and describes how these values translate into action. The six values are; *Quality Care, Respect, Excellence, Integrity, Teamwork and Leadership.*

WA Health's strategic priorities are focused on a continuum of care to support and guide health care through integrated service delivery from prevention and health promotion, early intervention, primary care through to diagnosis, treatment, rehabilitation and palliation, ensuring all Western Australians receive safe, high quality and accessible health care.

3. Arrangements under the *Health Services Act 2016*

Pursuant to Section 49 of the *Health Services Act 2016*, the term of the Service Agreement is for a one year period. This Service Agreement covers the period from 1 July 2016 to 30 June 2017 and a forecast period of three years ending 30 June 2020. The forecast period allocations provided within the Service Agreement are indicative only.

In accordance with Section 46(3)(a),(b) and (g) of the *Health Services Act 2016*, the main function of the EMHS is to provide health services (inpatient, Emergency Department and non-admitted services inclusive of mental health services) as well as teaching, training and research in support of the provision of health services. Pursuant to Section 44 of the *Health Services Act 2016*, a Commission service agreement entered into with the Mental Health Commission CEO for the provision of mental health services, must give effect to the Head Agreement between the Department CEO and the Mental Health Commission CEO. Additionally, the EMHS must provide Public Health and Special Purpose Programs. The services to be provided by the EMHS are detailed in the Service Agreement summary schedule (Section 9).

As outlined in Section 46(3)(c) of the *Health Services Act 2016*, the funding to be provided to the EMHS is detailed in the Service Agreement summary schedule (Section 9). The Department manages the distribution of funds sourced from the WA Government and from the National Health Funding Pool (includes Commonwealth and State funding). These funds are disbursed to the EMHS based on the payments schedule agreed by the Department and the EMHS. Further information on the method for distributing funds can be found in Section 5.

Under Section 46(3)(d),(e) and (f) of the *Health Services Act 2016*, the performance measures and targets for the provision of health services as well as the performance evaluation, review of results and data collection requirements is to be undertaken as prescribed in the Performance Policy Framework.

The EMHS will ensure that structures and processes are in place to comply with this Service Agreement, fulfil its statutory obligations and to ensure good corporate governance, as outlined in the *Health Services Act 2016*, legislative requirements, and WA Health operational directives, policy frameworks, policies and guidelines.

The EMHS will agree with the Health Support Services (HSS) that pursuant to HSS' role to provide centralised services, HSS will deliver four key functions (groups of services) to the EMHS: Finance, Human Resources, Information Technology and Supply.

In accordance with Section 50 of the *Health Services Act 2016*, a party that wants to amend the terms of the agreed Service Agreement must provide written notice of the proposed amendment to the other party. The Service Agreement amendment process is detailed within the Purchasing and Resource Allocation Policy Framework.

4. Health Services Management

Memorandum of Understanding

At proclamation of the *Health Services Act 2016* on 1 July 2016 Health Service Providers will become responsible and accountable for a range of new functions relating to the governance of their service. A range of these functions were previously the responsibility of the Department CEO and undertaken by the Department of Health on behalf of the WA Health System.

To transition these functions from the Department to the Health Service Providers a Memorandum of Understanding has been developed. This Memorandum of Understanding between the Department CEO and the Health Service Provider Board Chairs sets out the Parties' agreed terms for the provision of certain functions by the Department for Health Service Providers during a period of transition (the 2016-17 financial year). Further information can be found within the Memorandum of Understanding between the Department CEO and the Health Service Provider.

Bilateral Discussions

Throughout the course of 2016-17, regular discussions will be held between the Department CEO, Board Chair and the Chief Executive (or equivalent) from the EMHS.

From 2017-18 pursuant to Section 47(1)(b), if the Department CEO and the EMHS cannot agree on some or all of the terms within the Service Agreement, then the Department CEO will decide on the term at least one month before the expiry of the existing agreement (30 June 2017) and advise the EMHS of the decision. The term decided in this circumstance will be included in the Service Agreement.

Performance Management, Evaluation and Review

The performance reporting, monitoring evaluation and management of the EMHS is undertaken as prescribed in the Performance Policy Framework.

The Performance Policy Framework states that performance review meetings between the Department and the EMHS will initially be held monthly for the first quarter of 2016-17. Thereafter, the performance review meetings will be on a quarterly basis when no performance concerns are identified. Sustained high performance may lead to less frequent performance review meetings. If performance concerns are identified, the frequency of the performance review meetings will be held monthly until performance issues are resolved.

Performance Objectives

The EMHS will seek to provide and fund health services on a basis that is equitable, accessible, integrated and sustainable for the population in its catchment area.

The purchasing priorities are:

- to put the patient first and provide appropriate care close to where people live
- to increase the emphasis on more cost-effective primary and community care to reduce the demand for hospital services
- to deliver quality and accessible services within available resources
- to be clinically and financially sustainable.

5.2016-17 Budget & Resource Allocation

Setting and Distribution of WA Health Budget

For 2016-17, WA Health’s total approved expense limit for the WA public health system is \$8.6 billion, accounting for over a quarter of the State’s total expenditure for general government services.

As part of the 2016-17 budget submission, WA Health provided the State Government with advice as to the likely volume of inpatient activity, Emergency Department activity, hospital-based non-admitted activity and block funded services¹ expected for 2016-17 and for the three out-years of the forward estimates. This approach allows the State Government to make informed decisions through the annual budget process about the quantum of activity to be delivered by WA Health within the available State resources.

Method for Distributing the WA Health Budget

The Department will continue to use an activity based allocation methodology for Health Service Providers. In broad terms, this methodology includes:

- activity based allocations based on the Independent Hospital Pricing Authority (IHPA) 2016-17 price and cost models with adjustments applied to suit WA Health specific funding requirements
- activity based allocations for 2017-18 onwards are based on the established growth outlined by the demand and capacity modelling in the CSF

- adjustments for external factors (e.g. budget constraints, post-CSF arrangements), requirements for contracting privately-provided public hospital services and other relevant considerations.

Block funded services¹ are increased by an expected population growth factor.

Activity Based Funding (ABF) Pricing

The Department has implemented a single Health Service Allocation Price (HSAP) for 2016-17. This signals a movement from dual pricing between tertiary sites and all other sites as has been the case for the previous three years.

A transitional Tertiary Price Loading (TPL) has been developed and applied to adult tertiary sites in 2016-17 to recognise additional tertiary costs that are present in underlying costing data in WA. It is the intention of the Department to reduce the TPL over the next four years to converge to a single price, reflective of all costs associated with ABF.

Table 1: 2016-17 ABF Pricing Parameters

	Projected Average Cost (PAC)	Standard Price Loading (SPL)	HSAP
All sites	\$5,015	\$545	\$5,560
Tertiary Price Loading (additive)		\$184	\$5,744

¹ Block funded services relate to those health services for which activity data is not yet available (e.g. non-admitted mental health; teaching, training and research).

6. East Metropolitan Health Service (EMHS)

The EMHS is accountable for five facilities within WA Health that offer tertiary, general and specialist services.

The five facilities are:

- Royal Perth Hospital
- Bentley Hospital
- Kalamunda Hospital
- Armadale-Kelmscott Memorial Hospital
- St John of God Midland Public Hospital.

EMHS is responsible for the management of the contract with St John of God Health Care for the operation of St John of God Midland Public Hospital.

7. Key Outcomes and Priorities

EMHS priorities include:

- meeting demand for emergency services and meeting the WA Emergency Access Target (WEAT)
- managing elective surgery waitlists and meeting WA Elective Services Target (WEST)
- improving capability for increasingly complex patients
- enhancing mental health service delivery
- contributing to the National Health Reform agenda.

Safety, Quality and Risk

The EMHS will deliver safe, high quality, efficient and effective health service for the community through:

- improving involvement of patients in their care
- promoting ethics, integrity and professional conduct of all employees
- maintaining risk management systems to prevent, control and minimise risk
- ensuring employee health and safety.

Aboriginal Health

- The EMHS is committed to improve the Health Aboriginal and well-being, by:
- working with local Aboriginal people and services to identify health priorities and service gaps, and design culturally secure, easy to access and relevant health services
- culturally secure communicable disease control, chronic disease self-management and healthy lifestyle programs
- developing the Aboriginal health workforce.

Research

The EMHS will implement the Research Policy Framework in order to embed a vibrant and effective Research culture into the core activities of WA Health. The EMHS will:

- articulate an investment strategy for Research (including targets and performance measures) in a manner that will support and embed Research as a core activity within its health service
- work towards developing a standardised system for acquitting the Teaching Training and Research budget allocation to demonstrate its investment in research
- develop standardised mechanisms to monitor site research activity and the conduct of research projects in line with System Manager requirements and National Health and Medical Research Council Guidelines.

Clinical Teaching and Training

The EMHS will implement the Clinical Teaching and Training Policy Framework in order to ensure an appropriately qualified, trained and competent workforce exists, which is supplied into the future and across the WA Health System.

The System Manager will develop a standardised performance reporting framework in line with the Independent Hospital Pricing Authority classification system for acquitting the Teaching, Training and Research budget allocation by 2018. In the interim, the EMHS will articulate an investment strategy for Clinical Teaching and Training (including interim targets and performance measures) in a manner that will support the principles within the Clinical Teaching and Training Policy Framework.

8. Misconduct, Discipline, Public Interest Disclosure and Performance Management; and Conduct Review Panels and Medical Appeals Panels

Misconduct matters, breach of discipline matters, Public Interest Disclosure matters and Performance Management matters that commenced prior to 1 July 2016, and for which the Department CEO is decision maker, or which are being investigated or managed by the Department of Health on behalf of a Health Service Provider, will continue to be managed by the Department CEO and the Department of Health on behalf of Health Service Providers until those matters are finalised.

Conduct Review Panels and Medical Appeals Panels convened prior to 1 July 2016 under the *Memorandum of Understanding between the Minister for Health, the Director General of Health and the Boards of Management and the Australian Medical Association (Western Australia) Incorporated in respect of Clinical Privileges, Conduct and Governance in Western Australian Government Hospitals and Health Services 2015*, will continue to be managed by the Department CEO and the Department of Health on behalf of Health Service Providers until the matters are resolved, including any legal proceedings which may arise.

9. Summary of Activity and Funding

	2016-17 Budget		Forward Estimates					
	WAUs (#)	Budget (\$)	2017-18		2018-19		2019-20	
			WAUs (#)	Budget (\$)	WAUs (#)	Budget (\$)	WAUs (#)	Budget (\$)
East Metropolitan Health Service	189,747	1,251,316,824	194,219	1,265,495,643	198,649	1,312,649,176	202,806	1,352,708,381
ACTIVITY BASED SERVICES	173,667	981,626,318	177,945	1,018,028,500	182,228	1,055,892,998	186,220	1,089,573,763
Schedule A—Inpatient	122,463	692,540,940	124,876	714,713,648	127,166	737,059,046	129,219	756,164,799

NON-ACTIVITY BASED SERVICES		77,077,964		63,782,367		71,393,599		74,182,161
Schedule D2—Small Rural Hospitals		—		—		—		—
Schedule E—Public Health & Ambulatory Care		3,960,329		4,019,735		4,080,031		4,141,232
Schedule F—Teaching, Training and Research		51,945,925		54,337,527		56,809,119		59,265,257
Schedule G—Special Purpose Funding		21,171,710		5,425,105		10,504,449		10,775,672
FINANCIAL PRODUCTS		29,851,023		29,382,325		27,629,889		25,746,485
Schedule I—Financial Products		29,851,023		29,382,325		27,629,889		25,746,485
MENTAL HEALTH	16,080	162,761,519	16,274	154,302,451	16,421	157,732,690	16,586	163,205,973
Schedule Q—Mental Health Funding	16,080	162,761,519	16,274	154,302,451	16,421	157,732,690	16,586	163,205,973

Notes:

- 1 This schedule outlines the Activity as Weighted Activity Units (WAUs) and associated budget allocation by category for all hospitals in the Health Service Provider's catchment area.
- 2 The Performance Policy Framework specifies the targets and performance thresholds for Activity.

10. Service Activity Schedule

Commonwealth Specific Purpose Payment Activity and Funding

ABF Service Group	National Efficient Price (NEP\$) (as set by IHPA)	Total expected NWAU(#) (modified for IHPA adjustments)	Commonwealth	
			Funding Rate (%)	Contribution (\$)
Total Activity Funded	4,883	172,003	42.4%	356,201,995
Acute Admitted	4,883	99,712	42.5%	207,170,825
Admitted Mental Health <i>(Includes MHC)</i>	4,883	9,901	34.0%	16,450,460
Sub-Acute <i>(Includes MHC)</i>	4,883	14,429	38.6%	27,163,558
Emergency Department	4,883	24,399	42.2%	50,224,585
Non Admitted	4,883	23,562	48.0%	55,192,566

Non-ABF Service Group	Total Contribution (\$)	Commonwealth		State Contribution (\$)
		Contribution (\$)	Funding Rate (%)	
Total Block Funding	108,699,152	36,257,144	33.4%	72,442,008
Non Admitted Mental Health	51,429,681	14,612,971	28.4%	36,816,710
Other 'In Scope' Program Services	—	—	—	—
Rural CSO sites	—	—	—	—
Teaching, Training and Research <i>(Includes MHC)</i>	57,269,471	21,644,172	37.8%	35,625,299

Note:

This schedule relates to Commonwealth in-scope activity only and is a subset of the Summary of Activity and Funding Schedule.
