

# Sustainable Health Review Interim Report: Feedback Survey

The Sustainable Health Review Interim Report feedback survey consisted of 14 questions. Responses to questions 9-12 are published in a summarised report on the SHR website. This represents the open feedback section of the survey.

Your Personal Details	
1. Title	Mr <input type="checkbox"/> Miss <input type="checkbox"/> Mrs <input type="checkbox"/> Ms <input type="checkbox"/> Dr <input type="checkbox"/> Other <input type="checkbox"/>
2. First Name(s)	
3. Surname	
4. Contact Details	
5. Organisation	
6. Location	<input checked="" type="checkbox"/> Metropolitan <input type="checkbox"/> Regional WA <input type="checkbox"/> Outside WA
7. Are you providing a response on behalf of your group/organisation or as an individual? (Required)	<input type="checkbox"/> Group/organisation <input checked="" type="checkbox"/> Individual <input type="checkbox"/> Other, please specify _____
<b>Q8. Do you consent to your feedback being published, in summaries or in the Final Report? (Required)</b>	
<input type="checkbox"/> I consent to my feedback being published <input checked="" type="checkbox"/> I consent to my feedback being published anonymously <input type="checkbox"/> I do not consent to my feedback being published	

The next two questions will allow you to provide more detailed feedback on how to maximise improvements in each of the Directions or suggest other areas or actions for the Sustainable Health Review Panel to consider to develop a more sustainable health system.

**13. In regards to the 12 Directions, please provide detailed comments on how to maximise improvements in each of the Directions. Where possible, please indicate which Direction your comments relate to.**

3: Need to adapt funding models to incentivise care in the community and support sharing of information in this area.

Related to many directions - need to continue to call out and be brave and bold about challenging the medicalised model of healthcare in Western Australia. The AMA are extremely powerful and can lobby to have initiatives changed or blocked and still seem to be putting pressure on for more beds and inpatient resources with a Dr centric model. This needs to be addressed and challenged by both political parties if this is to change. Hospitals are too scared to hold Drs to account or challenge behaviours that do not align with health sustainability or patient centred care [REDACTED]. To overcome this, health service boards and executives need to stand up to the AMA and the politicians also need to back the health services when hot topics become politicised.

**14. Is there anything else that the Panel has missed so far that is important in developing a more sustainable health system for Western Australia?**
