

Interim Report: Feedback Survey

The Sustainable Health Review Interim Report feedback survey consisted of 14 questions. The responses to the open feedback questions are detailed below. Responses to questions 9-12 have been published in a summarised report on the SHR website.

| Your Personal Details | |
|---|--|
| 1. Title | Mr <input type="checkbox"/> Miss <input type="checkbox"/> Mrs <input type="checkbox"/> Ms <input type="checkbox"/> Dr <input checked="" type="checkbox"/> Other <input type="checkbox"/> |
| 2. First Name(s) | Sue |
| 3. Surname | Taylor |
| 4. Contact Details | |
| 5. Organisation | |
| 6. Location | <input checked="" type="checkbox"/> Metropolitan <input type="checkbox"/> Regional WA <input type="checkbox"/> Outside WA |
| 7. Are you providing a response on behalf of your group/organisation or as an individual? (Required) | <input type="checkbox"/> Group/organisation <input checked="" type="checkbox"/> Individual <input type="checkbox"/> Other, please specify: _____ |
| Q8. Do you consent to your feedback being published, in summaries or in the Final Report? (Required) | |
| <input checked="" type="checkbox"/> I consent to my feedback being published <input type="checkbox"/> I consent to my feedback being published anonymously <input type="checkbox"/> I do not consent to my feedback being published | |

The next two questions will allow you to provide more detailed feedback on how to maximise improvements in each of the Directions or suggest other areas or actions for the Sustainable Health Review Panel to consider to develop a more sustainable health system.

13. In regards to the 12 Directions, please provide detailed comments on how to maximise improvements in each of the Directions. Where possible, please indicate which Direction your comments relate to.

Telehealth can be useful for more than just rural support. Many outpatient appointments could be effective without physical presence, even for metropolitan patients.

Formularies for investigations will be a useful tool for ensuring more care is provided in the community. Greater involvement of physiotherapists, dietitians, nurse practitioners to assess and trial treatments between GP referral and specialist assessment would reduce waste and ensure effective treatment is more timely.

Mandatory recording of Goals of Therapy would inform a new perspective on appropriate care. ie result-based funding, rather than treatment-based funding.

14. Is there anything else that the Panel has missed so far that is important in developing a more sustainable health system for Western Australia?

Real time prescribing - requirement for appropriate diagnosis

Limitation on indications for investigations
