The next two questions will allow you to provide more detailed feedback on how to maximise improvements in each of the Directions or suggest other areas or actions for the Sustainable Health Review Panel to consider to develop a more sustainable health system.

**13. In regards to the 12 Directions, please provide detailed comments on how to maximise improvements in each of the Directions. Where possible, please indicate which Direction your comments relate to.**

"Directions 9 and 11 refer to research and investment.

There is unfortunately, no reference to the need to develop non-animal methods of research. This is essential to increase the rate of clinical translation."

**14. Is there anything else that the Panel has missed so far that is important in developing a more sustainable health system for Western Australia?**
