### Your Personal Details

*This information will be used only for contacting you in relation to this submission*

Title	[REDACTED]
Organisation	
First Name(s)	[REDACTED]
Surname	[REDACTED]
Contact Details	[REDACTED]

### Publication of Submissions

*Please note all Public Submissions will be published unless otherwise selected below*

- I do not want my submission published
- I would like my submission to be published but remain anonymous

### Submission Guidance

You are encouraged to address the following question:

**In the context of the Sustainable Health Review Terms of Reference listed below, what is needed to develop a more sustainable, patient centred health system in WA?**

- Leveraging existing investment in Primary, Secondary and Tertiary healthcare, as well as new initiatives to improve patient centred service delivery, pathways and transition;
- The mix of services provided across the system, including gaps in service provision, sub-acute, step-down, community and other out-of-hospital services across WA to deliver care in the most appropriate setting and to maximise health outcomes and value to the public;
- Ways to encourage and drive digital innovation, the use of new technology, research and data to support patient centred care and improved performance;
- Opportunities to drive partnerships across sectors and all levels of government to reduce duplication and to deliver integrated and coordinated care;
- Ways to drive improvements in safety and quality for patients, value and financial sustainability, including cost drivers, allocative and technical efficiencies;
- The key enablers of new efficiencies and change, including, research, productivity, teaching and training, culture, leadership development, procurement and improved performance monitoring;
- Any further opportunities concerning patient centred service delivery and the sustainability of the WA health system.

### Submissions Response Field

***Please type your response into the field below. Alternatively you may provide your submissions as a separate attachment (Suggested Maximum 5 pages).***

- Clear guidelines for what is core business for WA Health.
- IT systems which will support clinicians to provide clinical services. This needs to include IT systems which are integrated and speak to each other and suitable levels of admin/IT support to maximize clinical services
- Investment in preventative health and community services which prevent hospital admission. Under ABF hospitals are rewarded for admitting patients rather than keeping them out of the medical system
