Surname	Nicholas
Contact Details	[REDACTED]

### Publication of Submissions

*Please note all Public Submissions will be published unless otherwise selected below*

- I do not want my submission published
- I would like my submission to be published but remain anonymous

### Submission Guidance

**You are encouraged to address the following question:**

**In the context of the Sustainable Health Review Terms of Reference listed below, what is needed to develop a more sustainable, patient centred health system in WA?**

- Leveraging existing investment in Primary, Secondary and Tertiary healthcare, as well as new initiatives to improve patient centred service delivery, pathways and transition;
- The mix of services provided across the system, including gaps in service provision, sub-acute, step-down, community and other out-of-hospital services across WA to deliver care in the most appropriate setting and to maximise health outcomes and value to the public;
- Ways to encourage and drive digital innovation, the use of new technology, research and data to support patient centred care and improved performance;
- Opportunities to drive partnerships across sectors and all levels of government to reduce duplication and to deliver integrated and coordinated care;
- Ways to drive improvements in safety and quality for patients, value and financial sustainability, including cost drivers, allocative and technical efficiencies;
- The key enablers of new efficiencies and change, including, research, productivity, teaching and training, culture, leadership development, procurement and improved performance monitoring;
- Any further opportunities concerning patient centred service delivery and the sustainability of the WA health system.

### Submissions Response Field

***Please type your response into the field below. Alternatively you may provide your submissions as a separate attachment (Suggested Maximum 5 pages).***

While Bridgetown is blessed with General Practitioners and a public hospital there are a number of services that the Community Resource Centre(CRC) is involved in presenting to the community to supplement the primary/secondary care facilities. Currently we arrange visits from practitioners that are NOT available in town and this is of assistance to our aging population. They include massage, optical, counselling and other health information forums on subjects such as cancer. The CRC is also a technology hub with access to the internet via high speed internet, videoconferencing (IP) which will support one of the Reviews Terms of Reference (digital Innovation) and utilising the CRC ( 100 across the State) allows for opportunities to partnership to present better outcomes for communities.
